Skillset

- Python (Pandas, matplotlib, Seaborn, Selenium, BeautifulSoup)
- MySQL
- MS Excel (VLOOKUP, Pivot Tables)
- Tableau

Project Experience

YouTube Comment Analysis: *Programmer/Analyst*

Jan 2021 – Feb 2021

Created valuable insights on the general sentiment expressed by the commenters on my client's YouTube channel with over 100,000 subscribers. Simplified the process of manually reviewing viewers' comments.

Provided my client with additional insights that included sets of the top 100 most repeated words and phrases from the comment section separated by sub-category of video respectively which resulted in an improved understanding of the audience and their topics of discussion.

Video Game Sales EDA: *Programmer/Analyst*

Nov 2020 - Dec 2020

Initiated an investigation into the history of video game sales from the period of 1978-2020. Collected the relevant information using web scrapping methods and created a database to hold and manage the data.

Performed an Exploratory Data Analysis (EDA) on the data. Produced insights that included distribution of sales, total sales, top video games by sales, and top game consoles by sales.

Education

365 Data Science Program

Certificate of Completion, Issued: Oct 2020

California State Polytechnic University, Pomona

Bachelor's in Computer Science, Graduation Date: Jun 2020

Leadership/Volunteer Experience

Cal Poly Pomona Game Design and Development Club: *President*

2019 – 2020

Cal Poly Pomona Game Design and Development Club: *Treasurer*

2017-2018
